

U.S. ARMY MEDICAL RESEARCH AND DEVELOPMENT COMMAND

FY 20 ACQUISITION FORECAST OF CONTRACTING OPPORTUNITIES

The FY 20 Acquisition Forecast is a projection of anticipated contracting opportunities (funded / unfunded) from the U.S. Army Medical Research and Development Command with support provided by the U.S. Army Medical Research Acquisition Activity and the Office of Small Business Programs. The forecast is not all inclusive and will be updated throughout the fiscal year. Questions about each entry should be directed to the POCs via their email address. Please feel free to email jerome.k.maultsby.civ@mail.mil or myrsonia.lutz.civ@mail.mil regarding updates, and other questions pertaining to this FY 20 Forecast.

DISCLAIMER: Title V, of Public Law 100-656 requires that Federal agencies make available its procurements forecast. The forecast is not intended to be all-inclusive. The forecast is one of many tools available to businesses, in particular, small businesses seeking to conduct business with the federal government. All projected procurements are subject to revision or cancellation. Final decisions on the extent of competition, small business participation, estimate value, or any value, or any aspect of the procurement action will not be made until each procurement is initiated. The forecast data is for planning purposes, does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal, and is not a commitment by the government to purchase the desired products or services. Actual solicitation notices will be posted on FBO.Gov (i.e. Federal Business Opportunities) as prescribed by the Federal Acquisition Regulation. **

SPECIAL NOTE:

FedBizOpps Will Be Retired After Veterans Day Weekend

As of Nov. 12, Federal Business Opportunities, the website for publishing all public government procurements, will be officially decommissioned. After Veterans Day, the authoritative source for federal solicitations will be under a page on beta.SAM.gov. According to the current timeline from the General Services Administration, the current FBO.gov site will enter a "data freeze" beginning on Nov. 8. During that freeze, no new procurement data will be uploaded to the site as it is fully decommissioned over the holiday weekend. Beginning on Nov. 12, all federal procurements will be posted on beta.SAM.gov under the "Contract Opportunities" tab. Users will have to use an existing account through Login.gov—or create a new one—in order to get full use of the new opportunities site. Federal employees using their FedBizOpps accounts to migrate over to Login.gov should have their information and roles transferred, as well, though the nomenclature for those roles might change.

Organization/Office Abbreviations:

USAMRAA:	U.S. Army Medical Research Acquisition Activity
USAMMDA:	U.S. Army Medical Materiel Development Activity
USAMRIID:	U.S. Army Medical Research Institute of Infectious Diseases
USAARL:	U.S. Army Aeromedical Research Laboratory
USAISR:	U.S. Army Institute of Surgical Research
WRAIR:	Walter Reed Army Institute of Research
USARIEM:	U.S. Army Institute of Environmental Medicine
USAMRICD:	U.S. Army Medical Research Institute of Chemical Defense
TATRC:	Telemedicine and Technology Research Center
PPAE:	Plans, Programs, Analysis and Evaluation
